Notes:

¹ ITB: Number of Invitations to Bid sent to registered bidders.

² These bids include an escalator clause. If, during the performance of the awarded purchase order, the price of the product significantly increases, through no fault of the awarded bidder, the bid price may be equitably adjusted by an amount reasonably necessary to cover any such significant price increases for so long as such significant increase is occurring. As used herein, a significant price increase shall be that which is verifiable by actual cost documentation, justifiable percentage ratios, and other matters related to this contract. In the event the significant cost increase is no longer occurring, the prices of the contract product shall revert back to that of the awarded bid price.

³ Alabama General Competitive Bid law allows purchase of an infinite number of units. Additional purchases may be made from an awarded bid for up to three years with no change in pricing or specifications. Pricing may be changed when escalator clause allows such in bid specifications. Estimated units are for the initial purchase. Additional units may be purchased while bid is viable.
