## REQUEST PUBLIC INPUT HAS BEEN EXTENDED TO MARCH 13<sup>th</sup> 2050 LONG RANGE TRANSPORTATION PLAN

The Southeast Wiregrass Area Metropolitan Planning Organization (SWAMPO) is updating the region's Long Range Transportation Plan (2050 LRTP). This plan will identify a vision for the region's transportation system over the next 25 years. The multimodal plan will include projects and strategies for roads, bicycle/pedestrian paths, railroads, airports, and transit systems throughout the region.

The public is encouraged to take an online survey to provide feedback for the plan. Survey availability has been extended to March 13<sup>th</sup>. It is available on the City of Dothan Website Homepage at [www.dothan.org](http://www.dothan.org).

Public feedback is a primary focus of the 2050 LRTP. The public engagement process includes stakeholder meetings, a public survey, online engagement, and outreach at community events. The completion of the plan will allow the MPO to apply for federal funding to help implement projects identified in the plan.

To learn more about SWAMPO's 2050 LRTP, visit <https://www.dothan.org/870/2050-Long-Range-Transportation-Plan>.
