

**City of Dothan, Alabama**  
 PO Box 2128 Dothan, AL 36302  
 GGI Yearly Certification (Form A)

This form is to be completed by a "city certified" grease waste hauler or plumber

*Every food service establishment in Dothan, Alabama, must have their gravity grease interceptor (GGI) certified annually to verify that all components of the grease control equipment are present and in good working condition. The inspection will, thus, identify any structural problems associated with the GCE.*

Establishment Name: \_\_\_\_\_

Establishment Address: \_\_\_\_\_ Dothan, AL

Establishment Phone: \_\_\_\_\_ FSE Contact: \_\_\_\_\_

Inspection Criteria:	Yes	No <sup>1</sup>	N/A
_____ % FOG and Solids			
1. Interceptor <b>completely</b> emptied and cleaned before inspection?			<b>V O I D</b>
2. Access is available to all interceptor chambers for cleaning and maintenance?			
3. Inlet tee is firmly attached to prevent the escape of FOG and extends downward at least 2/3 depth of water?			
4. Inlet tee has a minimum 6" nipple firmly attached?			
5. Outlet tee is firmly attached to prevent the escape of FOG and extends downward to within 12" of tank bottom?			
6. Outlet tee has a minimum 6" nipple firmly attached?			
7. Inlet and outlet tees are made of a non-collapsible material that does not easily flex or bend (minimum Schedule 40 PVC)?			
8. Interceptor is free of visible holes, leaks, or severe deterioration?			
9. Baffle is secure and operational.			
10. Plumbing through the baffle wall consists of a tee or sweep placed in the vertical position of the inlet compartment 12" above the floor, or a slotted baffle is visible and in good working condition.			
11. No sewer clean-out covers are missing, damaged, or grated? If not present, enter N/A.			

*Footnotes: 1. If the answer to any question is "no," then the grease control equipment has failed the annual certification process (excluding #1). Please indicate below what corrective action(s) will need to be made and include an approximate date the correction(s) are expected to be completed. Attach additional pages if needed.*

Corrective Action Response: \_\_\_\_\_

Expected completion date: \_\_\_\_\_

I, \_\_\_\_\_, have made a visual inspection of the GGI at the above establishment and determined it to have a \_\_\_\_\_ gallon capacity. I attest that the information provided is true and accurate and understand that falsification of this record can result in removal from the City of Dothan's certified list of contractors.
